

# Dentists:

Do you want to improve patient care and make more revenue?

With little effort, you can increase profits while providing high quality care

Almost 30% of Americans have sleep apnea, mostly undiagnosed. Now you can significantly increase oral appliance and compliance revenue and improve patient care.

Now REMware, the best-in-care sleep solutions company, offers DreamClear. DreamClear is the turnkey home sleep apnea testing program that makes the entire process easy for providers and their patients.

- ✓ **Ease of Use.** Working with our telemedicine partners, we handle up front consult and sleep test scripting for you, end-to-end.
- ✓ **Immediate Revenue.** Increase volume of oral appliances and care after patients receive sleep apnea diagnosis.
- ✓ **All patients benefit** from the most advanced home sleep testing program available

## How It Works

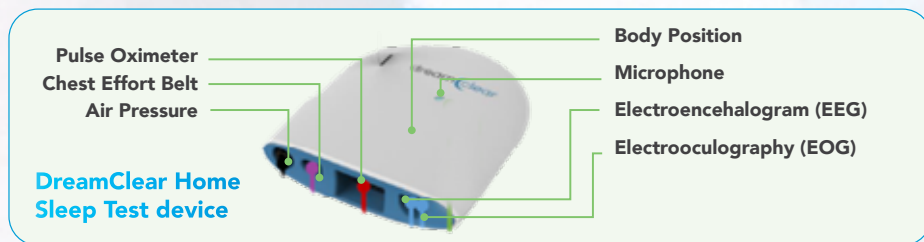

**1. PRESCRIPTION** Our doctors schedule a telemedicine visit based on your recommendation.

**2. TEST KIT DELIVERY** REMware sends testing equipment to patient's home.

**3. TESTING** Patient downloads mobile app (IOS or Android) and conducts tests at home. Patient help line available 9 pm to 6 am Tuesday through Saturday.

**5. INTERPRETATION** DreamClear immediately scores, interprets and provides results to dentist.

**4. DATA TRANSFER** 30 minutes after awakening, patient data from test sensors streams via mobile app (wifi or LTE) to cloud storage

**6. ORAL APPLIANCE CARE.** With sleep apnea diagnosis, you receive a referral for an oral appliance to improve health.
